

MATERIAL SAFETY DATA SHEET

Product: **Cupric nitrate**

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Material Identity

Product Name: Cupric nitrate, Hydrate, Crystal, Purified

Chemical Formula: $\text{Cu}(\text{NO}_3)_2 \cdot 3\text{H}_2\text{O}$

Product Code: CH-10031433A

General or Generic ID: Copper (II) Nitrate; Cupric nitrate trihydrate; Nitric acid; copper (2+) salt;
Copper Dinitrate Trihydrate; Copper (II) Nitrate trihydrate (1:2:3)

Company

Copper Harbor Company, Inc.
2250 Davis Street
San Leandro, CA 94577-2204
510-639-4670

Emergency Telephone Number:

1-800-451-8346

2. COMPOSITION / INFORMATION ON INGREDIENTS

<u>CAS No.</u>	<u>Chemical Identity</u>	<u>Common Name</u>
10031-43-3	N/A	Cupric nitrate

3. HAZARDS IDENTIFICATION

Potential Health Effects

Eye:

Eye irritation upon contact. Symptoms include stinging, tearing, and redness.

Skin:

May cause mild skin irritation. Symptoms may include redness, burning of skin, or, occasionally, blistering. Passage of this material into the body through the skin is possible, but it is unlikely that this would result in harmful effects during safe handling and use.

Ingestion:

This product is an irritant. Prolonged contact can be destructive to tissue.

Inhalation:

Breathing small amounts of this material during normal handling is not likely to cause harmful effects. Breathing large amounts or over-exposure by inhalation may cause respiratory irritation.

MATERIAL SAFETY DATA SHEET

Product: **Cupric nitrate**

Symptoms of Exposure:

Signs and symptoms of exposure to this material through breathing, swallowing, and/or passage of the material through the skin may include: stomach or intestinal upset (nausea, vomiting, diarrhea), central nervous system excitation (giddiness, liveliness, light-headed feeling) followed by central nervous system depression (dizziness, drowsiness, weakness, fatigue, nausea, headache, unconsciousness) and other central nervous system effects, pain in the abdomen and lower back, acute kidney failure (sudden slowing or stopping of urine production).

Development Information:

Not available.

Cancer Information:

Based on the available information, this material cannot be classified with regard to carcinogenicity. This material is not listed as a carcinogen by the International Agency for Research on Cancer, the National Toxicology Program, or the Occupational Safety and Health Administration.

Primary Route(s) of Entry:

Inhalation, skin absorption, skin contact, eye contact.

4. FIRST AID MEASURES

Inhalation:

If affected, promptly remove individual to fresh air. If not breathing, give artificial respiration. If symptoms persist, seek medical attention. If breathing is difficult, administer oxygen. Keep person warm and quiet; seek immediate medical attention.

Ingestion:

Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen clothing such as a collar, tie, belt or waistband. If possible, do not leave individual unattended.

Eyes:

Spread eyelids with fingers and flush eye for minimum of 15 minutes with water; keep rotating the eyes to ensure complete flushing. Do not use an eye ointment. Seek medical attention if irritation persists or any loss of vision occurs.

MATERIAL SAFETY DATA SHEET

Product: **Cupric nitrate**

Skin:

Immediately remove contaminated clothing and thoroughly flush skin with plenty of water. Cover the irritated skin with an emollient. Seek medical attention if irritation from contact persists. Launder clothing before reuse.

Note to Physicians:

Pre-existing disorders of the following organs (or organ systems) may be aggravated by exposure to this material: liver, kidney, and central nervous system.

5. FIRE FIGHTING MEASURES

Flash Point: Not applicable.

Explosive Limit: Not available.

Auto-ignition Temperature: Not applicable.

Hazardous Products of Combustion: Combustible materials.

Extinguishing Media: Not applicable.

SPECIAL FIRE-FIGHTING PROCEDURES:

Not applicable.

NFPA CODES: Health = 2 Flammability = 0 Reactivity = 0

6. PRECAUTIONS FOR SAFE HANDLING AND USE

Steps To Be Taken In Case Material Is Released Or Spilled:

Small Spill:

Use appropriate tools to put spilled solid in a convenient waste disposal container.

Large Spill:

Oxidizing material.

Stop leak without risk and do not touch spilled material. Avoid contact with a combustible material (wood, paper, oil clothing, etc.). Keep substance damp using water spray. Persons not wearing protective equipment should be excluded from area of spill until clean up has been completed. Contain spill area by diking, and salvage product using recommended absorbent material. Prevent product from entering sewer, drains or waterways. Call for assistance on disposal. Be careful that the product is not present at a concentration level above TLV. Check TLV on the MSDS and with local authorities.

MATERIAL SAFETY DATA SHEET

Product: **Cupric nitrate**

7. PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE

Oxidizer. Keep away from heat, all sources of ignition, and combustible materials. Use only in a well-ventilated area and only for intended purpose. Follow label directions. Keep out of reach of children, off skin and out of eyes. Keep unused material in original container tightly closed. Do not re-use container for material other than original contents. Keep container dry, away from heat and sources of ignition. Do not breathe dust. Oxidizing materials should be stored in a separate safety storage cabinet or room. Containers of this material may be hazardous when emptied. See NFPA 43A, Code for the Storage of Liquid and Solid Oxidizers. Keep away from incompatibles such as oxidizing agents, reducing agents, combustible materials, organic materials.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Respiratory Protection:

If overexposure has been determined or documented, a NIOSH/MSHA jointly approved air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH/MSHA respirators under specified conditions. (See your safety equipment supplier.) Engineering or administrative controls should be implemented to reduce exposure.

Skin Protection:

Wear resistant gloves. To prevent repeated or prolonged skin contact, wear impervious clothing and boots.

Eye Protection:

Chemical splash goggles in compliance with OSHA regulations are advised.

Other Protective Clothing Or Equipment:

Provide sufficient mechanical ventilation to maintain exposure below level of overexposure.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance and Odor: Solid. (Deliquescent crystals solid.)

Molecular Weight: 241.6 g/mole

Boiling Point: Decomposition temperature: 170 °C (338 °F)

Melting Point: 114.5 °C (238.1 °F)

Specific Gravity: 2.05 (Water=1)

Vapor Pressure: Not applicable.

Evaporation Rate: Not available.

Solubility in Water: Complete (in cold water)

MATERIAL SAFETY DATA SHEET

Product: **Cupric nitrate**

10. STABILITY AND REACTIVITY

Incompatibility: Reactive with reducing agents, combustible materials, organic materials and metals.

Stability: Stable

Hazardous Decomposition: Not available.

Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Primary routes of entry are inhalation and ingestion. Acute oral toxicity to animals (LD50): 940mg/kg (Rat). May cause damage to the following organs: kidneys, liver, cardiovascular system, central nervous system.

12. ECOLOGICAL INFORMATION

No Data

13. DISPOSAL CONSIDERATION

Waste Disposal Method:

Dispose of in accordance with all applicable local, state and federal regulations.

14. DOT SHIPPING NAME & IDENTIFICATION:

CLASS 5.1: Oxidizing material.

Nitrate, inorganic, n.o.s. (Cupric Nitrate) UNNA: 1477, PGIII

15. OTHER INFORMATION

The information accumulated herein is believed to be accurate but is not warranted to be, whether originating with the company or not. Recipients are advised to confirm in advance of need that information is current, applicable, and suitable to their circumstances.
